Fifth Grade

Thirty pupils from the fifth grade were neither tardy nor absent during the first school month.

Eighth Grade

Robert Hufford has returned to school after two weeks' absence due to illness in the home.

The pupils are doing some excellent work in physiology drawings.

The prospects are favorable for an alert, wide-awake eighth grade during the school year.

High School

Last Friday the high school was favored by a talk given by Rev. Pholey of the Presbyterian church. This is the second of a series of talks on vocational guidance which the principal is endeavoring to procure for the high school. The talk given by Dr. Pholey was very interesting and helpful to the pupils, bringing out many useful things and examples from his own life.

He emphasized many things which make up a successful business life among which were attractiveness to others, courtesy and a pleasing personality.

Last Friday afternoon P. H. S. suffered defeat at the hands of Prairie Depot by a score of 12 to 7. This was caused principally by being out-weighted by our opponents and also by the bad playing on the whole by the team. Prairie made her touchdowns in the first and second quarters while ours was made by our captain and Quarterback Thornton. Dribbling then kicked a goal, making our total seven points. P. H. S. plays Bradner Friday at Bradner.

The program of the Athenian Literary Society will be given in the H. S. auditorium at 10:45 a. m. Friday, October 17th. The following is the program of the day: Vocal Solo—Ethel Trumphy. ANOTHER CITIZEN'S VIEWS

He Should Feel Better Now, With All This Out of His System.

THE LETTER WE RECEIVED

Dear Louis—I noticed you were not present at the Civic meeting last Thursday evening and wondered why till I realized what Thursday night meant to you. So knowing you would like to know what happened will try to slip the information to you. Funny how some of our busiest men can find time to attend a meeting where the only things discussed is the welfare and betterment of this old burg.

There is the president, Dr. Rheinfrank, he, besides a hospital full of sick to attend to, chases over a hundred miles of territory. And our mayor, Dr. Canfield, how the devil does he do it? As near as I can understand entire world is after him and the council to find ways and means to make a fifth of a million improvements without the fifth of a million. He should be appointed treasurer of the United States. McAdoo's accomplishment in the late war is nothing compared to what the mayor is doing. Then Mr. Pew was there as usual. Of course there's nothing to occupy his time or attention. I might mention also Messrs. Neitz, Munger, Franey, Averill and twenty or thirty others.

Well, Louis, the Civic Association went on record favoring the bond issue to fix our city building. If it don't carry I understand our mayor and council, also fire department will have to find new quarters. If they have to move what do you think of that old shop of Mladenus' for council? Anyway it would be better than the present room; it's not damp and foul. That takes care of the council, Louis, but what shall we do with the new fire engine. I guess George Munger, Jr., will go bugs if the engine he worked so hard for has to stand out in the street, don't you?

And what about the volunteer firemen? Of course they get paid for their time, three dollars a fire, is it not, Louis? That is enough for any man who risks his life perhaps or ruins a forty dollar suit of clothes; he's only in the hole thirty-seven dollars. What do they want a fire house for? Let them drain their hose by hanging them from a tree, even if it should be zero weather. Of course if the bond issue don't pass we could buy a tent for the council and fire department.

Shell Hole avenue was under discussion and while I did not get all that was said because George Munger gave me a cigar and was busy keeping it lit. Not one of those things he gave us, Louis, but a really cigar! It appears that a plan is under consideration whereby that beauty spot will be marred. By the way, Louis, is that included in the five and one-half miles of paved streets you tell about in that classy pamphlet you left at the house for me to send out in my letters?

The town seems to be suffering for a lack of funds. I heard that the tax valuation is only two million. Ever try to buy a piece of property here, Louis? Appears to me the tax valuation should be somewhere around twenty million.

Just one thing more, Louis, the Civic Association moved and seconded that a minstrel show be given for the amusement of the people. Details will be worked out later. I bet it will be a dinger. Well, Louis, that is all I can remember. If you see anyone who is interested, tell him to be there next time. Yours, AL.

P. S. One thing more. I never saw such a harmonious body of men. When a motion comes up for vote, the ayes have it.

DON'T FORGET

In figuring on your needs for over Sunday don't forget to read every one of the Saturday specials offered in this issue. They are real savings on every article mentioned and you will profit by taking advantage of them. More merchants are offering specials this week. It will pay you to read every advertisement in this issue.

LIVE HOGS HIT LOWEST PRICE IN 2½ YEARS

Live hog prices fell below the \$15 level Monday, when a drop of 25 cents per hundred pounds for pork in the hoof, set the work on heavies at \$14.75. This was the lowest price in about 2½ years.

Receipts at the Toledo stock yards were liberal.

In some instances, the cut in prices was even greater, as in light Yorkers, where a drop of a half-dollar was recorded.

Cattle, calves, sheep and lambs moved slowly and the top prices on the best grades were lower.

"If time were money, I would be a millionaire," sang the office boy; and the man who heard him said, "That lad has never heard of the Stewardship of Life." Not everyone has learned "to live on twenty-four hours a day."

"Sixty seconds make one minute; How much good can I do in it? Sixty minutes make one hour; I'll do the good that's in my power!"

Some folks are improving in the habit of regularity in attendance. It will not hurt them, and it will do the rest of us good. Too bad this disposition is not as catching as measles.

NEW FIRE ENGINE ARRIVES

Demonstration Saturday Night When New Lights Will Be Turned On

Saturday night will be a big one in Perryburg, weather permitting, and everything progresses nicely.

It is now planned to turn on the new park lighting system on Louisiana avenue, from Front street as far as the railroad.

The new auto fire fighter has arrived and will be on display on the street.

At 8 o'clock a big bonfire will be built on the street and the new apparatus will be used to extinguish the blaze, thus giving a practical demonstration of its usefulness.

Following the demonstration the officials of the company which built the truck will formally turn it over to the village, and it will be accepted by Mayor Canfield.

Come to Perryburg, Saturday evening and see how modern our village is rapidly becoming.

HEAR THE GREAT

COMMONER

At Perryburg Sunday Evening, October 26th

Not without cause is William Jennings Bryan called the "Great Commoner." He is of the people and for the people. He knows how to express their best thoughts in a matchless way. He has spoken to more people of all classes and conditions than any other statesman. He comes to Perryburg with a great message and you may be sure that he will deliver his address with such brilliant wit, humor and common sense that it will grip your hearts and minds with convincing power. This is your opportunity to hear America's greatest orator without money and without price. His message is of vital interest to all. "Know the truth and the truth will set you free."

Youth and Hope

linger longer with those who acquire the savings bank habit.

Age is not wholly a matter of years but as much of mental attitude, optimism and buoyancy.

Discouragement, cynicism—make a man old before his time—make a young man old.

There is nothing more inspiring than a young old man; there is nothing more contemptible than an old young man.

Those who have used their spare earnings to provide for reserves or to plan for the future will have a brighter outlook on life. They will remain young with passing years.

Start the savings bank habit early and you will not only live longer, but you will be younger when you are old.
